EDUCATION

GRT Mahalakshmi Vidyalaya
12th Standard, **Percentage: 80%**

Chennai
2022

SRM University KTR
B.Tech(Computer Science and Engineering), **CGPA : 8.35/10**

Chennai
2022 - 2026

PROJECTS

Quantum-Smart-Parking-Simulation | Python, Qiskit, Flask

- Developed a smart parking simulation system using quantum computing concepts and real-time parking management techniques.
- Utilized Qiskit to simulate quantum-based optimization for efficient parking slot allocation and vehicle management.
- Designed a user-friendly interface to monitor parking availability and reduce congestion in crowded parking areas.
- Integrated Python and Flask to build a scalable prototype demonstrating intelligent parking automation.
- Github - [Quantum-Smart-Parking-Simulation](#)**

E-commerce_review_sentiment_analysis | HTML, Python

- A Flask-based web app that scrapes product reviews from Amazon and analyzes their sentiment using NLP models.
- Utilizes Hugging Face Transformers for accurate classification of reviews as positive, negative, or neutral.
- Provides a real-time, user-friendly interface for visualizing sentiment insights directly from live product pages.
- Github - [E-commerce review sentiment analysis](#)**

Traffic_Optimization | Python, CSS, JavaScript, HTML

- An AI-powered system that analyzes traffic video feeds to detect vehicle density using computer vision techniques.
- Dynamically adjusts traffic light timings based on real-time congestion levels to optimize flow and reduce wait time.
- Built with Flask and OpenCV, providing a scalable solution for smart city traffic management.
- Github - [Traffic Optimization](#)**

TECHNICAL SKILLS

Programming Skills: Python, C++, SQL

Web Development and DB: HTML, CSS, JavaScript, MongoDB

Tools & Technologies: TensorFlow, Linux, DevOps

Core Competencies: DSA, Problem-Solving, Creativity

Soft Skills: Teamwork, Collaboration, Communication, Adaptability

CODING PROFILES

Leetcode: [Mahesh](#)

HackerRank: [Mahesh](#)

CodeChef: [Mahesh](#)

CERTIFICATES & ACHIEVEMENTS

Java Programming - [NPTEL](#)

DSA – [Udemy](#)

Cloud Infrastructure – [Oracle](#)

Cybersecurity – [Fortinet](#)

Python - [HackerRank](#)

JavaScript- [HackerRank](#)

INN-ING 2.0 [Ideathon] – **2nd Place** (February 2025)
